PROFILE

Content Director with over 6 years building and leading creative departments for brands across Egypt and the GCC. Lead strategist on the Webby Honoree-awarded Rotana “Naturally Gets Us” campaign, which drove **+1297% ghee sales growth** without a celebrity, influencer, or TV buy, and 9× featured on Ads of the World. Currently direct a 20-person content department servicing a 50+ client portfolio, and led the Pandora Egypt brand relaunch on a freelance basis. I build AI into creative practice — production workflows, generative image and video, and custom business tools. I pair culturally grounded storytelling with performance data to build brand narratives that hold up commercially.
